A Message from the Founder of FOADAC

It is with great pleasure and honor that I welcome you all to this 5th anniversary charity cocktail event. The Foundation for Orphaned, Abandoned and Disabled African Children, FOADAC is a non-profit organization, whose mission is to give hope, love and support to children who have lost their parents from HIV/AIDS, or have been abandoned due to a childhood disability or some other unfortunate social and or economic circumstance. FOADAC conducts outreach projects and projects to help as many as possible orphanages in Cameroon (West Africa). There is an urgent need for us all to pull our resources together for a great cause, because these children have found themselves in borderline situations through no fault of their own.

FOADAC is relentless in its effort to help restructure the lives of our future rulers, parents and teachers. It has been a daunting task trying to cater for the basic needs of these unfortunate children. We currently have a population of 135 children in five locations in Cameroon. Thanks to the kind donations from well-wishers around the world our achievements since inception have been:

- We have delivered more than 30 baby cribs for new babies.
- We have provided first aid medications to several area dispensaries.
- We have provided basic hospital equipment to 3 healthcare centers in the local area of N.W. Province in Cameroon.
- We have partnered with Global Health Care Foundation to conduct health fairs for diagnosis and for the provision of generic drugs for common tropical diseases as well as provide free HIV/AIDS testing.
- We have provided educational assistance to about 80 of the 135 children currently attending elementary school.

Despite the strides made so far, we are overwhelmed with new challenges everyday with an increasing number of children walking through our ever revolving doors in dire need of support of an ever increasing and diverse kind. With determination and prayers we are willing to forge ahead in helping these children by soliciting assistance from institutions and kind hearted individuals like all of you here today. We want to reach out to these kids today for tomorrow might be too late. I urge you to support this great mission with whatever you have. Be that light at the end of the tunnel for a kid who is waiting. Many thanks to all of you who have supported this program through hard work and dedication, kind and cash donations, prayers and more. To all the wonderful kind hearted and dedicated board members of FOADAC, I say thank you. My family and friends, I can't thank you enough for just being there for me always. To my church family at New Life Fellowship, you are the greatest - Thank you! Above all, I am thankful to God for allowing me the opportunity to serve. He has blessed me so I can bless someone else.
